Avg Order Price

€710

Avg Item Price

€540

Key Takeaways

11x Revenue Gap

Magist monthly = 9% of Eniac

5.7x Order Price Gap

Magist buyers spend far less

4.9x Item Price Gap

Different price segment entirely

Customer Segment

Budget buyers vs premium brand

MAGIST TECH

Total Revenue

€1.24M

Avg Monthly Revenue

€103K

Avg Order Price

€123.95

Avg Item Price

€109.70

Note: Eniac data represents Apr 2017 – Mar 2018. Magist figures are from the same window for a like-for-like comparison

Our Recommendation

Magist is a good marketplace — just not for Eniac

Tech is only 15% of orders and 14% of Magist's revenue — not a tech-focused platform

5× pricing gap — Magist buyers are budget-focused, Eniac targets premium customers

96% of Magist tech products are priced below €500 — Eniac's range barely exists here

Magist's buyers are a different audience — risk is strategic and commercial misalignment.

Eniac should explore alternative channels better aligned with its premium positioning in Brazil.
